FATIMAH YOSEF ALMOSAWI

18 March 2021

Packages

```
library(tidyverse)
library(mosaicData)
```

Exercises

1.

```
?Whickham
```

Your answer: The data is observational as the description states that is based on age, smoking, and mortality, which are all observable events and not produced via experiments.

2.

```
nrow(Whickham)
```

```
## [1] 1314
```

Your answer; There are 1,314 observations. As we know every row is an observation.

3.

```
names(Whickham)
```

```
## [1] "outcome" "smoker"  "age"
```

Your answer:

There are 3 variables, “outcome”, “smoker”, and “age”

```
unique(Whickham$outcome)
```

```
## [1] Alive Dead
```

```
## Levels: Alive Dead
```

```
unique(Whickham$smoker)
```

```
## [1] Yes No
```

```
## Levels: No Yes
```

```
unique(Whickham$age)
```

```
## [1] 23 18 71 67 64 38 45 76 28 27 34 20 72 48 66 30 33 68 61 43 47 22 39 80 59
```

```
## [26] 56 62 51 32 60 37 36 50 55 73 52 25 53 31 54 69 79 75 21 29 24 26 49 84 40
```

```
## [51] 44 74 46 35 77 57 42 81 19 63 78 83 82 70 58 41 65
```

Your answer: Using the `unique()` function on the 3 variables we could see that “outcome” only takes Alive or Dead value, which makes it categorical non-ordinal. “smoker” only takes Yes or No, which also makes

it categorical non-ordinal. Age is numerical continuous data. continuous One of the best ways to visualise categorical data is through the use of bar charts.

```
ggplot(Whickham, aes(x = outcome)) +  
  geom_bar()
```

```
ggplot(Whickham, aes(x = smoker)) +  
  geom_bar()
```

```
ggplot(Whickham, aes(x = age)) + geom_boxplot()
```

4. I expect the health will be worser and may be the person will be died after while, if he keeping smoke.

```
ggplot(data=Whickham, aes(x=smoker, y=outcome, color=outcome)) + geom_bar(stat="identity")
```

what changes> the category of the age it's appear to us and we see the most of dead people not smoker in age (65+) but in age (45-64) and (18-44) the most dead people are smoker that is relationship between the smoking and health not clearly but can say that your health will be change to worst if you be smoker
